

Plans submitted must show the nature, type, size, style, color, shape, height, location, materials, floor plan, approximate cost and other material attributes of the proposed item. All plans and specifications will be reviewed for harmony and compatibility of external design and location in relation to surrounding structures, landscaping, topography and views from neighboring Lots. Owner is solely responsible to ensure conformity with municipal and county building codes and building permits, if applicable.

The approval of the Architectural Committee of any plans, drawings or specifications for any work done or proposed, or for any other matter requiring prior written approval will not be deemed to constitute an approval of any other matter or a waiver of any requirement or restriction imposed by the City or any law or any requirement or restriction imposed and will not be deemed an approval of the workmanship or quality of the work or of the integrity or sufficiency of the plans, drawings or specifications. Architectural requests will be reviewed within (30) days of the date received. If the proper documentation (referenced within) is not submitted, this will not be considered an official submittal. You will receive written notification of an approval, disapproval or if there is some minor additional information needed.

Please sign below to indicate that you understand and accept responsibility for full compliance with the Association requirements in this matter and any municipal, county building codes, building permits, etc. Work must be completed within 90 (ninety) days of the date of the approval.
